CE

CE

Compact form lets you easily measure even in tangled wiring

CE

Large diameter for clamping even thick cables and double wiring

CE

Consistent, high-precision high-current testing across a wide temperature range

Ideal for thermostatic chambers and engine rooms

The CT6844-05/ CT6845-05/ CT6846-05 are ideal for operational evaluations of devices inside equipment that is subject to extreme temperature changes, offering tough, high-precision testing.

Reduced effect of the position of the conductor in the clamp

Conductor position changes within the clamp core have little effect on measured values.

Reduced effect of noise from nearby wires

Minimal effect is observed from current in nearby wires when measuring in crowded wiring.
