

MiniX

The HIKMICRO innovation MiniX is a versatile thermal imaging tool that wirelessly connects to your smart device. The MiniX provides brackets for flexible installation options, such as clipping it onto your phone or tablet for easy one-handed operation, magnetic wall mounting, or tripod installation for long-term temperature monitoring. It features a dual-lens, a high-resolution VOx detector, and a 0.3 MP optical camera for added detail. With SuperIR™ and fusion features, you can capture crisp thermal images and quickly locate hidden problems with accurate temperature measurements. The wide temperature range of -20°C to 550°C makes it ideal for building inspection, HVAC, electrical, and mechanical equipment maintenance. The MiniX has a 25 Hz frame rate for fast inspections and a Wi-Fi function for real-time image sharing. It's a powerful thermography tool that fits in your pocket, ready whenever you need it.
